Concept

Zenbu Kimi no Sei da. debuted in October 2015 under the concept "Yamikawai – Conquering the World."
Their very first live show was an unprecedented, sold-out one-man performance, marking a shocking and unconventional entrance into the music scene.
Since then, while remaining fully independent, they have continuously shaken the core of Japan's alternative music scene.

- 20 singles
- 7 full albums
- 5 re-recorded albums
- Numerous solo works

They have performed at nearly all major venues across Japan, including:
Spotify O-EAST / Zepp Tokyo / Zepp DiverCity / Hibiya Open-Air Concert Hall / Nakano Sunplaza / Tokyo Dome City Hall / Nippon Budokan

In March 2023,
they successfully held a solo concert at Nippon Budokan during the pandemic, followed by a temporary hiatus.

In March 2024,
they made a complete comeback with a revival show at Kawasaki CLUB CITTA', and began moving forward once again without slowing down.

Following a nationwide tour, in 2025,
they launched a project unlike anything ever attempted in Japan's music scene:
"?? Countries ?? Cities – Beyond Japan~ ZOHENSHINSHOKU AI-rosion TOUR ~"
This tour marks their 10th anniversary and stands as a truly insane, large-scale world tour running from June 2025 all the way to its final show on December 30, 2026, at Kawasaki CLUB CITTA'.

As of April 2026 (at the time of this document):

- Visited: 18 countries
- Performed in: 16 countries

And the journey is still expanding.
With over 100 performances already surpassed,
they are on track to achieve something
no one has ever accomplished before.

To the World

Even during the global pandemic starting in 2020, they never stopped.
They completed three full tours across all 47 prefectures of Japan, continuing to move forward when most of the world stood still.
And yet—the desire to connect with the world kept growing stronger.
Especially within their leader, Megumi Kisaragi.

Now, in their 11th year—
Zenbu Kimi no Sei da. is finally bringing to life what they have declared since the very beginning.

- A true world tour, reaching even the regions they could not visit during the previous tour (June 2025 – Dec 30, 2026)
- North America: USA / Canada
- Latin America: Mexico / Chile / Argentina / Brazil
- Oceania: Australia / New Zealand
- Asia & Southeast Asia
- All of Europe, including Scandinavia, the UK, and Ireland
- 7 major city performances across Japan
- 100+ shows worldwide

- To grow
- To change
- To evolve
- To corrode
- And to love everything

This is the spirit of Zenbu Kimi no Sei da.
This is not just a tour—
this is a declaration to the world.

- To You, Wherever You Are
To you who are reading this—
Will you become an accomplice to the fire that ignites on stage?
Will you step into this heat, this impulse, this chaos—
and experience it with us?

Since their debut, they have always said:
♥ "Yamikawai World Domination —
We are Zenbu Kimi no Sei da."

With gratitude and determination
